

On behalf of California's 16<sup>th</sup> Congressional District, I have made the following requests for funding in the surface transportation authorization bill:

Project: Capitol Expressway Light Rail Extension

Request Amount: \$75,000,000

This project is a small start public transit project to extend Silicon Valley's light rail system 2.3 miles from the existing Alum Rock Station to the Eastridge Transit Center along the Capitol Expressway in east San Jose, California. The project will include design, right-of-way acquisition, and construction.

Project: U.S. 101/Capitol Expressway Interchange Improvement

Request Amount: \$36,000,000

This project includes the design, right-of-way acquisition, and construction of a series of operational and safety improvements on U.S. 101 between Capitol Expressway and Yerba Buena Road in San Jose.

Project: Coyote Creek Trail

Request Amount: \$5,440,000

The project entails design and construction of a three-mile paved segment of Coyote Creek Trail from Highway 101 (Lower Silver Creek) to Story Road, San Jose, CA.

Project: Autumn Parkway Extension

Request Amount: \$8,800,000

This project will support design, right-of-way acquisition, and construction of Autumn Parkway in San Jose, California. Autumn Parkway will parallel the Guadalupe River and connect from St. John Street to Coleman Avenue.

Project: San Jose Primary Bikeway Network

Request Amount: \$4,800,000

This project includes design, environmental review, and construction of an additional 10 miles of the Primary Bikeway Network in San Jose, California.

Project: Capitol Expressway Pedestrian Improvements

Request Amount: \$1,440,000

This project will construct sidewalks along four segments of the Capitol Expressway in Santa Clara County, California to fill in sidewalk gaps and provide continuous walkways for pedestrians to access light rail, bus stops, community facilities, commercial services, employment hubs, and residential areas.

Project: Almaden Expressway Overcrossing

Request Amount: \$3,340,800

This project will construct a bicycle and pedestrian bridge overcrossing of Almaden Expressway, north of Coleman Road, in San Jose, California. The overcrossing will link transit, residential, and recreational facilities across a six-lane highway.

I have also requested the continued authorization of the Mineta Transportation Institute at San Jose State University as a University Transportation Center.
